

NAGENDAR VARKALA

☎ 6301770630 | ✉ varkalanagendar777@gmail.com | 💻 nagendar-varkala | 🌐 Nagendar23 | 📍 Hyderabad, India

PROFESSIONAL SUMMARY

Full Stack Software Engineer with production experience building scalable MERN and Next.js applications. Delivered measurable results — 35% API latency reduction, 40% increase in event registrations, and sub-200ms real-time video latency. Proficient in TypeScript, REST API design, JWT authentication, and cloud deployment (AWS, Vercel, Docker). Passionate about end-to-end ownership, clean code, and shipping user-facing features with real impact.

EXPERIENCE

Full Stack Software Engineer Intern

Oct 2025 – March 2026

Innorize Enterprises Private Limited

Hyderabad, India

- Engineered and shipped full-stack features across production MERN/Next.js applications, achieving a Lighthouse SEO score of 100 and reducing API response time by ~35% through MongoDB query optimization and indexing
- Led a full codebase migration from JavaScript to TypeScript, eliminating runtime type errors and improving long-term maintainability across a multi-module production codebase
- Integrated Firebase Analytics for observability and built an abusive-content filtering system at the API layer, strengthening platform security and reducing manual moderation overhead
- Collaborated in an agile environment — participated in code reviews, sprint planning, and delivered features on schedule under a senior engineering team

PROJECTS

Campus-Connect | *MERN Stack, Next.js, REST APIs, JWT, MongoDB, QR Integration*

2025

- Architected and shipped a full-stack campus event management platform with end-to-end ownership from schema design to responsive frontend, increasing event registrations by **40%**
- Designed 20+ RESTful API endpoints with JWT-based RBAC for admin and participant roles, ensuring secure, role-appropriate data access across all routes
- Reduced check-in time by **70%** by engineering a QR-code-based digital ticketing system, eliminating manual verification entirely

VideoMeetZ | *React, Node.js, Express, WebRTC, WebSockets*

2025

- Built a production-grade real-time video conferencing app supporting multi-user video, audio, and screen sharing using WebRTC peer-to-peer connections and WebSocket-based signaling
- Achieved **sub-200ms** end-to-end latency, improved connection reliability by 30%, and reduced signaling overhead by 25% through optimized session handling and reconnection logic

PDFEditZ | *Next.js, TypeScript, Node.js, Express, MongoDB, pdf-lib, multer, JWT*

2026

- Architected a production-ready, full-stack document automation platform enabling real-world workflows — PDF↔DOCX conversion, digital signature/watermark injection, page-level split/extraction, and text/image overlay — exposed via 10+ secure RESTful API endpoints built with Node.js, Express, pdf-lib, and sharp
- Engineered end-to-end security with JWT + bcrypt authentication and per-user role-based access control (RBAC), ensuring zero cross-user data exposure; built an automated node-cron file lifecycle pipeline to detect and purge expired files from disk and MongoDB, cutting storage bloat without any manual intervention

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, C

Frontend: React.js, Next.js, Framer Motion, Responsive Design, HTML5, CSS3

Backend: Node.js, Express.js, REST API Design, JWT Authentication, WebSockets, WebRTC

Databases: MongoDB, MySQL, PostgreSQL, Firebase Firestore

Cloud & DevOps: AWS (S3), Docker, CI/CD Pipelines, Vercel, Netlify, Render

Tools: Git, GitHub, Firebase Analytics, Postman

EDUCATION

Sri Indu College of Engineering & Technology

Hyderabad, India

B.Tech in Artificial Intelligence & Data Science GPA: 7.74/10

2022 – 2026

CERTIFICATIONS & ACTIVITIES

Certifications: JavaScript Essentials – Coursera (2024) | Python Programming – GeeksforGeeks (Sep 2025)

Open Source: Maintained 5+ full-stack GitHub projects with clean architecture, modular code, and thorough documentation

Leadership: Led cross-functional teams in multiple hackathons — owned solution design, task delegation, and on-time delivery

PROFESSIONAL SUMMARY

Customer service professional with 2+ years of experience in fast-paced environments, delivering high-quality support and resolving customer inquiries efficiently. Tech-savvy with the ability to quickly learn new technologies, navigate multiple systems, and guide customers through solutions and basic system-related queries. Strong problem-solving abilities, attention to detail, and a customer-first approach, with a growing interest in technical support and remote service roles.

SKILLS

Customer Support: Customer Experience, Issue Resolution, Conflict Resolution, Communication

Technical Support: Troubleshooting, System Navigation, OS & Device Familiarity

Tools: Python, SQL, Power BI, Microsoft Excel

Operations: CRM Systems, Data Entry, Documentation, Time Management

EXPERIENCE

Tax Accountant

Jan 2026 – Apr 2026

MD Tax Services, Toronto, ON

- Resolved client inquiries and guided users through tax processes and system-related issues
- Collected and validated financial data with high accuracy using tax software
- Troubleshot client and system errors, improving process efficiency
- Maintained documentation and ensured compliance with regulatory requirements
- Communicated updates and handled sensitive data with confidentiality

Cashier & Customer Service Representative

Feb 2025 – Dec 2025

No Frills, Toronto, ON

- Delivered efficient service in a high-volume environment
- Resolved customer issues quickly, improving satisfaction
- Managed transactions accurately while multitasking under pressure

Team Member

Jan 2024 – Oct 2025

A&W Restaurant, Toronto, ON

- Provided fast and friendly customer service during peak hours
- Addressed customer concerns and maintained service quality
- Supported team operations and workflow efficiency

EDUCATION

Post Graduate Diploma in Global Business Management

Centennial College, Toronto, ON

Bachelor of Business Administration (BBA)

Nizam College, Hyderabad, India

ADDITIONAL INFORMATION

- Available for flexible shifts (8 AM – 11:30 PM, Monday–Sunday)
- Comfortable working in remote, fast-paced environments
- Dedicated workspace with high-speed internet
